

SmartPRO Hub

Oman's HR, Payroll & Sanad Compliance Platform

THE PROBLEM

- 924 licensed Sanad offices in Oman — all managing client permits manually
- WPS payroll files built at midnight, submitted to banks with no pre-validation
- Work permits expire undiscovered — HR managers find out from employees
- Ministry of Labour filings tracked across WhatsApp threads and browser tabs
- Omanization ratios managed on last month's spreadsheet during live inspections

THE SOLUTION

TRACTION

- **Live customers:** Sanad offices managing 10–50 client companies
- **WPS time saved:** 74-employee company: 2+ hours → 23 minutes per cycle
- **Audit result:** 28-minute Ministry of Labour inspection pass (full compliance)
- **Pricing:** Starting OMR 12/month · 14-day free trial · No credit card

MARKET

- TAM: 924 Sanad offices + ~15,000 Oman SMEs with 10–200 employees
- Oman Vision 2040 mandates full digital compliance infrastructure for MOL & SPF
- No dominant local incumbent — current solutions are Excel + WhatsApp
- GCC expansion path: Bahrain, Kuwait share identical regulatory structure

FOUNDER

Fahad Alamri — deep domain experience in Oman HR & compliance operations.
Built SmartPRO Hub to solve problems he observed firsthand managing Oman businesses.
